## DETAILED ACTION

### ***Response to Amendment***

The applicant's amendment, received 1-21-2009, overcomes the examiner's rejection. Hence claims 1-2, 6-7, 15, 17-18, 20-21, 26, 30, 32, 34-35 and 43-49 are allowed while claims 3-5, 8-14, 16, 19, 22-25, 27-29, 31, 33, 36-42 and 50 have been cancelled.

1. With regard to the USC 101 rejection for claims 1 and 35:

i. Claim 1 has been amended and recites a statutory apparatus, therefore the rejection is overcome.

ii. Claim 35 is a system claim and the components recited (eg. access network, core network and user equipment) are the statutory devices performing the method.

2. With regard to the USC 101 and 112 rejection for claim 18, the examiner notes that the specification clearly identifies the mobile terminal as performing the method steps as shown in figure 1 (eg. pseudo code), which requires an on-board computer readable medium with computer instructions embodied on said medium:

*[Paragraph 0067] The UE 10 may know the call is to an emergency number, based on a comparison of the called number to a set of numbers held in an emergency call number database in the UE. In such case, the UE is adapted to indicate the emergency nature of the call in the initial connection establishment with the mobile network. As represented by step 102, the UE initiates an emergency call.*

Further discussion is found in the following paragraphs (and in figures 2-3):

*[0083] A second embodiment for the scenario where the UE does not know that the call being established is an emergency call is now described with reference to Figures 3 & 4.*

*[0084] When the UE does not know itself that the call is an emergency call, it cannot provide an emergency call indication to the UTRAN in the radio resource control (RRC) connection setup signaling. In a step 302, the UE initially prepares to initiate a call generally towards the RNC of the UTRAN.*

The USC 101 and 112 rejections are overcome.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

1. The applicant has amended as per the recommendations of the examiner. He therefore believes the claims to be novel over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
